

*...her fears of crowds and cancer  
ceased to worry her<sup>1</sup>*

*case report*

"40-year-old woman with overt anxiety symptoms . . . marked fear of crowds . . . phobic ideas concerning cancer. Tension, irritability, and tiredness were in evidence."

*medication:*

'Thorazine', 25 mg. orally, t.i.d.

*response:*

"Following ['Thorazine'] medication she became placid, composed and cheerful. When asked about her fears, she smiled and readily stated that they had ceased to worry her." She is now running her household for her husband and young son without difficulty.<sup>1</sup>

## THORAZINE<sup>\*</sup>

is available in ampuls, tablets and syrup (as the hydrochloride), and in suppositories (as the base).
